## Concert Productions and Management

If you have not actually managed a concert before or just don't want the hassle **Kent Events** can help you.

We will oversee the entire concert production from providing the Stage, Sound and Lighting to acquiring security, catering, transportation, backline and working directly with the artist as a liaison for all other performance rider needs.

We are not a concert promoter but will advise on concert marketing strategy, choosing the right artist for your demographic, concert ticket scaling, sponsorships and other services to ensure a successful concert.
