Corporate Meetings / Away Days

There is no substitute for what can be achieved through human interaction and the exchange of ideas fostered by a real-life meeting or conference in comfortable and conducive surroundings.

A properly-planned meeting or event can achieve what a conference call or a web chat just can't.

A live event can change someone's perspective because; people are more likely to do business with people they have met in person.

The benefits of live meetings should be obvious, we understand today's economic climate may dictate that your organization may not be able to find the time to plan an event and even then you may need some specialized outside assistance.

That's why we're here to help. Our experienced planners can free up your team to do what it does best.

We can handle all aspects of a meeting or business event, from site selection, registration, transportation, developing agendas, guest speakers, facilitation and entertainment to planning food & beverage functions, audiovisual, etc, to your exact specifications and within budget for any number of persons.

For clients that have a shorter time frame to work with, we can plan and manage one off events such as board or investor meetings, awards dinners, grand openings of new premises or facilities and the like.

Whatever the size, venue or length of your event, our team will personally attend to it, so you can deal with the business of the meeting, not running it!

Corporate Parties

Everybody enjoys a party, but few like to organise them! With our personal approach to every style of event put in front of us we aim to create something that not only reflects our

Kent Events are an independent company; this enables us to source on your behalf the very best quality entertaining packages, whatever or wherever your event may be. Product Launches

The location for a product launch is vitally important; the wrong setting can completely undermine your message or product.

Product launch briefs can be interpreted in many different ways, as an independent company we can step back from your product and look through different eyes and suggest new ideas and ways that your product could be launched, that perhaps had not been considered internally.

Using creativity we will deliver an memorable occasion.

After your corporate event why not have some fun, team building is an excellent way to pull your staff together into a cohesive team and it doesn't have to be rocket science, in fact far from it.
