

Event Security

From a small private function to large scale corporate events, **Kent Events** arrange a wide range of professional staff from overt perimeter and access control staff through to discreet 'meeter greeters' that blend in to the visitor profile.

We have access to specialist staff and can provide stewarding staff for indoor and outdoor events.

We can also provide staff who are trained in traffic regulation and control ensuring your visitors arrive and leave your event safely.

All staff are briefed to each event/site by way of the site specific stewarding plan and are competent persons.
