INTRODUCTION

Papillon et Bijoux range of 100% Natural Virgin Hair is simply:

Luxurious... Unique... Versatile... Expressive... Luminescent... Lush... Enhancing

We are proud to announce the launch of the Papillon et Bijoux Virgin Hair collections from around the world which provide highly sought after genuine 100% Natural Virgin Remy Hair Extensions collected from the temples of Brazil, India, Russia, Europe, Malaysia, Peru and South America and imported into London ...the beauty, fashion and cosmopolitan capital of the world!

Our 100% Natural Virgin Remy Hair Extensions are so popular among celebrities, socialites, professional women and their stylists because they have the flexibility to match a wide range of hair textures from Caucasian, Asian to Afro Caribbean.

Papillon et Bijoux has received constant compliments for its range of 100% Natural Virgin hair textures available in Straight, French Curly, Natural Body Wave and Deep Body Wave Textures. These textures can easily be styled straight or worn naturally curly or wavy depending upon your mood without losing bounce and elasticity!

We also carry premium and luxury lines of full lace wigs, front lace wigs, lace closures and lace frontals that are custom made with our 100% Natural Virgin Remy Hair Extensions. We pay great attention to detail and perfection by adding baby hairs to the nape of the lace to give you a natural look and appearance.

Our 100% Natural Virgin Remy Hair Extensions have been carefully prepared with perfection in mind, therefore giving you longevity, bounce, elasticity, movement, and lustre with a growing selection of special textures you've been asking for such as our latest Italian wavy texture for that glamorous look!

We only use temple hair collected from one donor and deliver our exclusive hair extensions unprocessed and completely natural to maximize your style potential. The cuticles in our hair are aligned in the same direction

from weft to tip... a premium and luxury characteristic only found in true “REMY” quality hair. We also leave all cuticles intact in our 100% Natural Virgin Remy Hair Extensions. We do not believe in stripping the cuticles and thus degrading the gorgeous “natural” quality of our 100% Natural Virgin Remy Hair Extensions. Furthermore we do not mix our hair with non-human hair or fibres...our hair are 100% genuine!

Because we hand select only the healthiest hairs with a critical eye for quality and place special care in the collection and preparation of our extensions, our 100% Natural Virgin Remy Hair Extensions can offer the wearer longevity, length, body, versatility, elasticity and natural movement to every woman's coif! The new standard in quality... genetically designed to inspire and be remembered!

The Papillon et Bijoux brand is proud to be the hidden secret to peerless quality 100% Natural Virgin Remy Hair Extensions and ... allow us to help you “Enhance Your Natural Beauty and Express Your Personal Style!”

We can source different types of styles and textures from Straight, French Curly, Natural Body Wave and Deep Body Wave Textures. The wavy and curly hair will retain curls and waves even after washing and is not processed in any way. Again the colour range is limited in the hair types and may need a colour treatment to match your hair and/or your requirements.

Hair extensions have become particularly popular over the last decade - with a substantial percentage of the UK, Europe and USA's female populations now wearing them regularly. Hair extensions are most commonly found in 3 application types. Clip In hair extensions are the most recent to become popular. These can be clipped in and taken out of the hair at will, creating instant and effective looks. Weft hair extensions are sewn or glued to the hair, usually by a professional. These are fitted for permanent use. Pre bonded hair extensions are glued in with heat appliances and are done so strand-by-strand. This product can be used to great effect for mixing colours and styles.

Take this opportunity to browse Papillon et Bijoux Virgin Hair collections for what people are calling the most "ELITE & SOPHISTICATED HAIR ON THE MARKET ". We pride ourselves in selling high-end, premium luxury hair that everyone can afford. So go ahead and indulge yourself....in the brand Papillon et Bijoux.

Products

At Papillon et Bijoux we offer the following types of 100% Natural Virgin Remy Hair Extensions:

Brazilian Virgin Hair

This is our most exclusive and premium luxury natural virgin hair that is imported from the South American tropic regions of Brazil, Peru, Argentina and Venezuela. Genetically, most Brazilians and South Americans have some degree of European, African, and Amerindian ancestry which is why there's such a unique and varied texture quality to Brazilian hair. Our hair comes from a thriving Brazilian and Latin American economy. It is cleaner, healthier hair and received as original bulk ponytails (the hair is secured back into a ponytail and then cut). The ponytail is from one person and is not mixed with any other person's hair. All hair is in original banding from when the hair was cut and guaranteed to be in correct cuticle alignment. The hair is naturally black to off black and has some variations of rich brown. The colour range is limited and may have to be dyed to match individual client's requirements.

llon et Bijoux

Russian Virgin Hair

This is the most exclusive beautiful and rare type of hair as it has not been dyed or chemically treated in any way. Our virgin Russian hair is sourced from reliable suppliers in the Ukraine, Belarus and Russia to salons worldwide. Washed and cleaned, the hair is untreated, uncoloured and is in its virgin state, ready for dying by professional hair artists. The hair comes in two basic types—wavy & straight, and in different lengths, from 40-70 cm. Hair over 70 cm is quite rare but can be sourced for a 50% premium over current rates. The colour range is limited and may have to be dyed to match individual client's requirements.

Indian Virgin Hair

A very popular choice as the hair quality is excellent but not quite as good as the Euro grade hair. There is a more limited colour range on this type of hair and you can expect that it will dry with a natural wave. All the hair is pre-dyed to match a colour chart from which we can match a client's hair.

Peruvian Virgin Hair

This is our most exclusive and premium luxury natural virgin hair that is imported from the South American tropic regions of Peru. It has the similar features with our premium luxury natural virgin Brazilian hair. The colour range is limited and may have to be dyed to match individual client's requirements.

Euro Grade Virgin Hair (Eastern European)

This is the most popular choice for its soft natural feel and extensive colour range. This type of hair will dry with a natural wave. All the hair is pre-dyed to match a colour chart from which we can match a client's hair.

Papillon et Bijoux

Malaysian Virgin Hair

This is the most exclusive beautiful and rare type of hair as it has not been dyed or chemically treated in any way. The colour range is limited and may have to be dyed to match individual client's requirements.

SWISS LACE WIGS

We offer all types of custom full lace wigs, front lace wigs, lace frontals and lace closures made with 100% Natural Virgin Remy Hair Extensions from your choice of Brazilian Virgin hair, Russian Virgin hair, Indian Virgin hair, Peruvian Virgin hair, European Virgin hair and Malaysian Virgin hair. The lace material is made from Swiss lace or French lace, the choice is totally yours. The "lace front" portion of the wig allows recession on the scalp for an all natural hair line as if the hair were growing directly from the scalp. The wigs are made with 100% Cuticle hair and each hair is individually hand-tied for allowing for a tangle free hair styling solution. Cuticle baby hair is also hand tied to give the illusion and impression that new hair is growing.

How to measure for celebrity or custom lace wigs

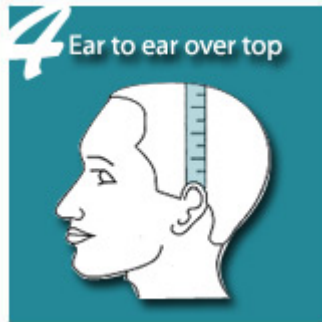

Measure all around your head. Position the tape measure, so its edge follows your hairline around your head and nape of your neck. (An average measurement is 22 inches).

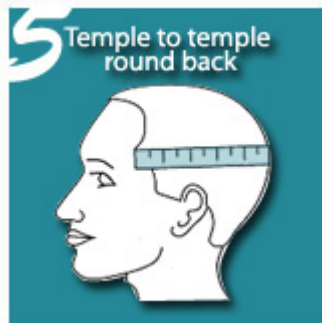

Measure from your hairline at the centre of your forehead straight back over your crown to the centre of your hairline at nape of your neck (Average measurement is 14 inches).

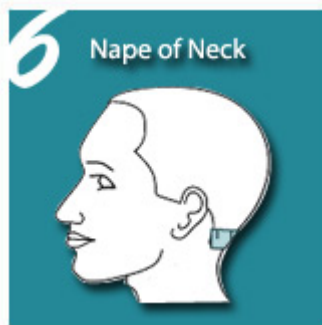

At the front of your ear measure from your hairline at the base of your sideburn, up across your hairline along your forehead to the same point in front of your other ear. (An average measurement is 12 inches).

Measure from your hairline directly above your ear across the top of your head to your hairline directly above your other ear. Average measurement is 13 inches.

Measure from temple to temple across the back of your head. (Average measurement is 14 inches).

Measure the width of your hairline across the nape of your neck. (Average measurement is 5.5 inches)
