

## **CORK CAT CLUB SHOW**

19/9/210 – Mrs. Rosie Alger-Street

What a pleasure it was to be invited to judge at this very special Pearl Anniversary show. My very grateful thanks to Margaret and her team for looking after me so well and to Emerline Callan for acting as my very competent steward as well as being great company. The hospitality during my whole stay was second to none., and I particularly enjoyed my visit on the Monday to Fota Wildlife Park to see the Cheetahs and other animals. At the show the standard of the cats was excellent and I had some really lovely exhibits to judge. Thank you all for making me feel so welcome.

### **ANY OTHER FOREIGN CHAMPION ADULT MALE (1 Present)**

1 GR CH. DMYTRIYEVA'S CH MAJESTICPRIDE MACHO (76 30) M born 4.4.08  
Large boy with stylish look. Well muscled strong body with rounded chest, sturdy legs and large oval paws. tail, thick and carried low, well ringed with black tip. Lovely glittered plush soft coat with pale gold background and large well spaced two toned black and brown arrowheads and rosettes. Strong well defined necklaces and a busy pattern on shoulders and flanks. Clear tabby markings on legs, reducing to very attractive spots on paws. Head slightly longer than wide with slightly rounded top. Good width between medium to large ears, wide at the base and slightly tilted forward. "M" on forehead extending as vertical lines over the top of the head. Penciling on cheeks. Widely spaced expressive yellow oval to round eyes. Profile shows slight dip in nose and shallow but firm chin. For perfection I would have preferred his muzzle just a fraction broader. A sweet cat once he had settled.

### **ANY OTHER FOREIGN CHAMPION ADULT FEMALE (1 Present)**

1 GR CH. ARCHER'S SUP & INT GR CH SHADANZA TANZANITE 77 F born 02.05.02  
Although no longer a spring chicken this girl had the most fantastic type and presence which certainly had not diminished with age. Body of moderate build, lithe and muscular, with mid section firm. Legs muscled at the body. Small oval feet. Tail short of the shoulder, slender but not whippy with dark blunt tip. Faint spine line. Coat short, fine and silky showing well defined sepia brown ticking with warm old ivory colour. Deeper warm tones on neck and ears. Nose mid salmon colour with dark outline. Paw pads brown and brown spurs on lower part of back of legs. Cheetah lines on face. Skull rounded with short broad muzzle and blunt nose. Ears large and wide open at the base. Eyes strong gooseberry green colour, large and really expressive. Straight line from nose to chin. The only things I could fault her on was her chin which I felt was a little shallow – but "Wow" to the rest of her! What a lovely exhibit -a pleasure to judge.

#### **BLUE BURMESE NEUTER OPEN (1 Present)**

1 PC & BOB. MCCARTHY'S SLIABH SWITCH MN born 23.05.08  
This lad was not at all happy when I judged him and I did hesitate awarding the certificate because of his attitude. However, I felt there was no malice involved, he was just overawed by the whole proceedings. Well muscled body with rounded chest. Legs and tail in proportion to his body. Old-fashioned blue colour to close lying very well presented sound coat with correct silvering on extremities. Head had rather flat top and

brow, but rounded out above pale yellow eyes looking a little round when I judged him. Good nose break and straight nose. Muzzle looking a little fine and pinched, but this was probably partly due to stress. Had he been entire I probably would have withheld as his attitude was not good.

**CREAM BURMESE NEUTER OPEN (1 Present)**

1 & BOB. NERETTI & GIBBONS' POPPYLOVE ACORN RUA MN born 11.09.09

Medium wedge with large ears with forward tilt. Flat brow, but rounded out above strong clear yellow eyes of very good shape and set. Broad nose. Muzzle just a fraction long for balance at the moment. Profile shows good depth to skull, good nose break, nose rolls off at tip a fraction, and deep level chin. Delightful temperament.
