Accountability

“Accountability because I think it’s important for people to be responsible and mature in how they act.”

“Accountability is an important value because it’s you – you’re in charge of what happens, good or bad. It’s no one else’s fault but yours (ownership)”

“Accountability means to me that someone is relying on me. If someone gave me a job or task to do, I would do so and become a responsible person.”
