Aspiration

“Aspiration in the Academy is important to me because you need it to succeed in life. You can show this by setting high targets.”

“Aspiration – without something to aspire to, I think none of the other values really come into play. Without a future goal you have no reason to be determined, show integrity or compassion or want to belong to a community. Young students need a dream that drives them to do well.”

**Academy
Values**

Aspiration

“You can show aspiration by working towards your goal, showing how you plan to achieve it and taking steps to make it a reality.”

“Value-education – to me this means achieving the best academic grades. I can show it by bringing a positive attitude to lessons and work, and be determined to do my best.”
