A tuned piano is preferable at the venue, however we can provide our own electric piano - please state if we need to do this. Power supply needed no more than 5m (16 ft) from the performance space if using our electric piano.

About Us

Opera can be seen as quite an elitist art form and many people never get to experience it. We believe that everyone of all ages should have access to opera and classical music. We are dedicated to breaking down the barriers that surround these genres by bringing these classical experiences to you by making them more accessible but without losing the quality that you would expect from these art forms.

All of our classical performers are established musicians in their own right and have performed with many of the major opera companies including English National Opera, Welsh National Opera and Scottish Opera.

We have several different shows in our repertoire including Operatastic! The Accessible Guide to Opera and Sing We Noel for the Christmas season.

Reviews

We were then taken on a journey through opera...The examples of operatic arias and duets were carefully selected to give a range of composers and styles...Their excellent voices which could fill the church with ease and gave a clear feeling of the power, attraction and drama of opera...This is an easy and enjoyable way for those who are unfamiliar with opera to learn about opera and enjoy some great arias and duets...A delightful evening for opera enthusiasts and novices alike...Any opera house would be proud of the standards set here.

For the Christmas Season we have the perfect show for you...
