INTRUDER ALARMS

Secure Alarms deliver intruder alarm solutions

REDUCE THE CHANCE OF BURGLARY BY UP TO 90%

The risk of crime never goes away. Burglars want your money and possessions -it's as simple as that! The fitting of an Intruder Alarm System to protect against losses is the method preferred by Police and Insurers. Good locks are essential, but will not prevent a determined burglar! The installation of an alarm system both visually deters and reduces the chance of burglary by around 90%, while also frightening off the intruder should they break-in. Success rates are extremely high!

DON'T TAKE THE RISK... ENSURE YOUR SECURITY WITH OUR INTRUDER ALARMS

SECURE ALARMS

Secure Alarms design and install systems to the NSI (National Security Inspectorate) 'Nacoss Gold Standard, for the Planning, Installation and Maintenance of Intruder Alarms' to British and European Standards.

Certificate No 00000197

ACCREDITATION

Secure Alarms are accredited to the NSI Gold Standard. Choosing an NSI approved company ensures workmanship to the highest recognised industry standard, as demanded by the Police and Insurers. We are also certified to ISO 9000 Quality Assurance.

Secure Alarms deliver **intruder alarm solutions**. When choosing an alarm system, it is of crucial importance not to compromise on quality or choice of company to carry out the work.

Secure Alarms are pleased to carry out a full site survey **at no cost to you**. Our team has the knowledge and proven experience to review your property effectively and recommend an appropriate system tailored to your needs.

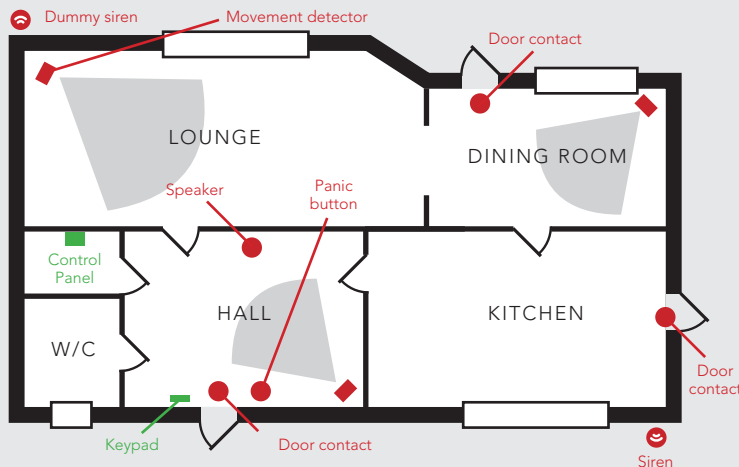

INVESTMENT

Alarms are either classed as 'audible only' or 'remote signalling', the difference being the audible system acts like a scarecrow, deterring

the thief. A remote system has the additional advantage of signalling the Police via an Alarm Receiving Centre. These systems can also monitor fridges, ponds, machinery, fire alarms, electrical supplies and anything else which could fail resulting in financial or personal losses. Text messages can even notify you when the children arrive home. The options are endless!
