Grooming marvellous

Congratulations to Simon James Menswear. After just nine months of opening, the company was shortlisted as one of the best groomswear retailers in the UK for 2011.

Owner Simon Griffith says that he is very proud of what he has achieved in a very short period of time. His commitment to providing the sort of service you would expect to find in London's prestigious Mayfair and Knightsbridge is clearly paying off.

Simon gained valuable experience while working in Bond Street and Harrods, serving clients that demanded outstanding service. He has received many testimonials from happy customers and is looking forward to helping many more grooms look extra special on the big day. This fun picture from Winterflood Photography. Photographer David says: "I love the images from Sarah Lloyd and Nick Pendleton's wedding last year. They married in St. Paul's Church, Addlestone, and held the reception at their home in Weybridge. The images really encapsulate not only their fun personalities, but also the amazing atmosphere and spontaneity of the day. Sarah and Nick had arranged for a rickshaw to take them from the church back to the reception, but Nick took it upon himself to hijack proceedings and take his new bride for a spin."
